Enterprise Healthcare Certification Programs for Payment Companies

Ensure Compliance, Reduce Risk, and Expand Your Healthcare Merchant Base

LegitScript Certification is the industry standard for vetting merchants in regulated industries, recognized by global ad platforms and card networks. As a payment provider, you are expected to ensure your healthcare merchants are meeting the regulatory requirements in the jurisdictions where they operate.

Our Enterprise Healthcare Certification Program creates a path for you to certify merchants at scale, mitigating risk while receiving additional benefits such as discounted packaging and account management support.

How It Works for You

Faster Merchant Approvals & Sales
LegitScript-certified healthcare merchants meet regulatory requirements, enabling quicker onboarding, approval, and seamless payment processing.

Reduce Risk & Ensure Ongoing Compliance
We monitor and track annual renewals to prevent lapsed certifications as well as regulatory changes that could impact the merchant compliance status.

Scalable Compliance for Large Merchant Portfolios
Effectively manage compliance for high-volume healthcare merchants, ensuring regulatory adherence while supporting business growth.

Boost Profitability with Flexible Pricing
The more certifications processed, the deeper the discounts—helping you maximize margins and create new revenue opportunities.

Enhance Brand Trust & Merchant Retention
Certification gives merchants a trusted seal of approval, making your platform the preferred choice for healthcare businesses.
